Define Your Style

INTERIOR DOORS

Your Interior Door Story

Interior doors are a source of privacy, comfort and sound reduction within the home. They provide openings to different sections of your living space while helping to define the personality of each room. Choose interior doors that meet the functional requirements of your home and make a statement about your personality.

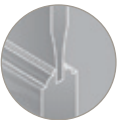

Panel & French Doors

Panel doors and French doors are available in a variety of sizes, finishes and configurations, sure to meet your needs. Where Panel doors are solid, French doors have panes of glass. Both styles are available as bi-folds and bi-parting. Choose the style and options that work best for you.

① Is your style classic or contemporary?

Classic styles are more traditional, with added details built into door components. Contemporary styles feature angular shapes and minimalist lines. Our Colonial models offer more classic character, while Shaker models are more contemporary.
